Subject: North Bay Beach Access Site 082112-03WDFW

Gretchen, thank you for your comments on Fish and Wildlife's (WDFW) proposed project at the North Bay Beach Access Site located in Mason County. WDFW has hired a professional archeologist firm, SIR to assist us in developing appropriate actions for our project planning and construction development plan. I have been assured that our consultant has already been in contact with the Department of Archaeology and Historic Preservation (DAHP) to ensure proper coordination and additional information requests are fully satisfied. It is also my understanding that additional surveys are nearing completion and the new information will be provided to DAHP to assist your agency's review and may result in additional direction as required to WDFW.

We look forward to DAHP's comments and direction and are committed to do our part in ensuring great coordination for this project. If you have any additional concerns or if we can assist in any manner, please feel free to contact me directly, direct phone 360.902.8376 or email Larry.Peck@dfw.wa.gov.

Thank you;

Larry Peck
WDFW Fish and Wildlife Biologist
